3. A participating tax collector of Broward or Miami-Dade Counties who, at each tax collector's discretion, participates in a pilot project through which the tax collector contracts with one or more license plate agencies for the provision of specified driver license services shall require each license plate agency with which he or she contracts to enter into a memorandum of understanding with the department pertaining to the specified driver license services and to cover the costs associated with any background checks and equipment and services needed to allow the license plate agency to provide driver license services. The memorandum of understanding between the department and a license plate agency must address, at a minimum, the authority and responsibility of the department, the tax collector, and the license plate agency; data security and privacy; disclosure of fees to customers to be charged by the license plate agency; approved uses and security of the computer network and equipment used for driver license services; the criminal background checks required of license plate agency owners and employees; fraud prevention and reporting; training for employees of the license plate agency; compliance with department procedures and state and federal law; the license plate agency's duty to supervise its employees; bonding;
remittance of state funds; and grounds for termination of the memorandum of understanding.
4. The department shall, upon application of each tax collector electing to participate in the pilot project, authorize the tax collector by interagency agreement, subject to the requirements of law and in accordance with department rule, to provide these services as the department's agent through one or more license plate agencies.
5. The department shall prescribe the best manner of delivering the data access and functionalities to license plate agencies for the purpose of providing specified driver license services to ensure compliance with 6 C.F.R. s. 37.
6. A participating tax collector's election to contract with a license plate agency under this paragraph does not require the tax collector to provide all driver license services authorized under paragraph (a).
7. This paragraph does not authorize a license plate agency to issue driver licenses or identification cards or possess any blank driver licenses or identification cards.
8. Before providing driver license services under this paragraph, all employees of a license plate agency who are engaged in the delivery of driver license services must be fingerprinted, undergo background checks, and are subject to disqualification from providing such services, to the extent required by 6 C.F.R. The tax collector shall submit a preliminary report of its findings and recommendations to the department by October 1, 2024, and the department shall return comments to the tax collector. By December 31, 2024, the tax collector shall submit a final report, together with the department's comments, to the Governor and Cabinet, the President of the Senate, and the Speaker of the House of Representatives.
